FATETIEVILLE AND WINCHESTER RAILROAD. A series of meetings will be held at various points in Lincoln County during the coming month for the purpose of discussing the importance of the above road, and obtaining subscriptions to enable the Company to put the grading under contract as early as possible. This step is an important one, and we expect to see the good people of Lincoln respond to the call in a prompt and becoming manner .-They will be found, we opine, awake to their interests and imbued with the spirit of the age we live in. It is no vain conjecture, we are convinced, to predict that the shrill neigh and thundering the hills and hollows of old Lincoln ere two years shall have sped their course.

COLTON'S GENERAL ATLAS. - This is truly a every department of trade. To merchants, lawyers, academiesdealers in and owners of lands in various portions of the Union, it is especially valuable, as it contains information which may be of great service to them. It contains one hundred and seventy splendid maps and plans on one bundred large imperial folio sheets, representing all the States and countries of America, Europe, Asia, Africa, and Oceanica; also various towns, cities, &c , with all necessacy information in regard to their wealth, size, growth and other important data. Mr. A. L. Westbrook is now engaged in canvassing this city for subscriptions for this work, and we have no doubt he will find hundreds of our citizens who are desirous to obtain a copy at the earliest possible

THE TRIALS OF LIFE .- Life, says Hannah More, is not entirely made up of great evils or heavy, trials; but the perpetual recurrence of petty evils and small trials is the ordinary and appointed exercise or the Christain graces. To bear with the failings of those about us - with their infirmities, their bad judgment, their ill-breeding, their perverse tempers-to endure neglect when we feel we deserved attention, and ingratitude when we expected thanks-to bear with the company of disagrerable people whom Providence has placed in our way, and whom He has perhaps provided or purposed for the trial of our virtue-these are the best exercises of patience, of self-denial, and the better because not chosen by ourselves. To bear with vexation in business, with disappointment of our expections, with interruptions of our retire. Great Cure of Rheumatism.-The editors of the Richmond Republican, of Dec. 24th, 1832, says that Carter's Spanish Mixture is no quack medicine. They had a man in their press-toom who was afflicted

with violent Mercurial Rheumatism, who was continually complaining of misery in the back, limbs and joints; -his eyes had become feverish and mattery, neck swollen, throat sore, and all the symptoms of Rheumatism, combined with Scrofuja. Two bott'es of Carter's Spanish Mixture cured him, and, in an editorial notice as above, they bear testimony to its wonderful effects, and say their only regretis, that all suffering with disease of the blood are not aware of the existence of such a medicine. Tax Ramas or Axv .- In this wonderful age, Art lays her master touches on almost everything. The ceilings over us and the carpers we tread on, are hallowed by Art. Art winds the railway through the mountains and the mud makes her machines of wood and iron, to act as if with knowledge and annihilates space with lightning tamed down to the tuteledge of a boy. Nothing is too lofty for her touch and nothing too humble. A new proof of this old conviction has just falled under our notice, in the shape of a Carnanvic Pill, from the Laboratory of that world renowned

Chemist, Dr. C. J. Aven. If we understand the subject, he has carried that article to the farthest perfection of which it is capable. Instead of employing Drugs in its composition, as we have always thought the necessary and only way, he has with consummate skill extracted the circues of the medicine to be em ployed and combined them alore in their purity together. The composition is then mixed and rolled by machinery and steam power into a sperold pdl which is wrapped in an envelope of gelatine, for protection from the effects of weather or time, and then thickly coated with sugar, to serve as its passport over the palate. Notwithstanding all the labored perfection they are offered to the Public at less than one centeach. However humble the devarument, we think this may be cafe'y characterised as the consummation of Art in its line .- Morning News. But.

Same as the Royal Lottery of Cuba—with this difference:
the Havana Lottery has \$5,000 Numbers—this has only There are two wheels, on each of which there are placed two Locks. The Superintendents have each a key to the Locks, an' the wheels cannot be opened unless both are resent. There are placed in the wheel of numbers to tubes containing sips of paper with the numbers from No. 1 to 15,000. In the wheel of prines there are placed tip inbes containing slips of paper with the prizes on then ranging from \$15,000 to \$100. When the drawing takes place, which will be in public, the wheels are unlocked, and after revolving them, a num-ber is drawn out of the wheel of numbers, and at the same time one is drawn out of the Prize wheel by boys with arms bared to the aboulder and blindfolded—the tube is slipped off, and the number held up and enrolled, so that the whole audience can see it—the number is then called off and reglatered by the Superintendents. The Prins drawn is credit all the prizes are drawn out. A copy of the drawing is then sent to the printers, and after comparison the Su deniscertify to the correctness of the drawing. erintendents are sworn to perform their duty without

It will be perceived that in this plan every prize is drawing is sent to every one ordering tickets.
